Support / Mounting Bracket 24” – Installation Notes

For Mounting Up To 4 Boxes To Studs. Cat. # 4P

1-800-286-9601 @ www.roughinready.com

LISTED

To Attach The Support / Mounting Bracket Directly To Studs:

1. Bend the Far Side Supports at the provided slots for stud depth if needed.
2. For stud depths of 5-1/2” or 6” break out the Far Side Extension (provided). Slide the tab into the slot so that the small holes align. Secure with a small sheet metal screw. Bend at slot for 5-1/2” stud depth.
3. Place against the studs at the desired height and attach the bracket to the studs using the provided holes.
4. When terminating another cable in this box, remove the Plaster Ring Assembly from the mounted Support / Mounting Bracket. The box will remain attached to the bracket.
5. To install the AC-MC Cable Whip from the next Assembly remove the KO and snap the connector into the box.
6. Adjust the Cable Holder to the desired angle to install the AC-MC cable per National Electrical Code section 300.4(D). To attach the AC-MC cable, push the cable into the holder until it snaps in.
7. Terminate the appropriate conductors to the device with Wagos (provided) and reattach the Plaster Ring Assembly to the mounted Support Bracket.
