

Single & 2 Gang Protection Plates

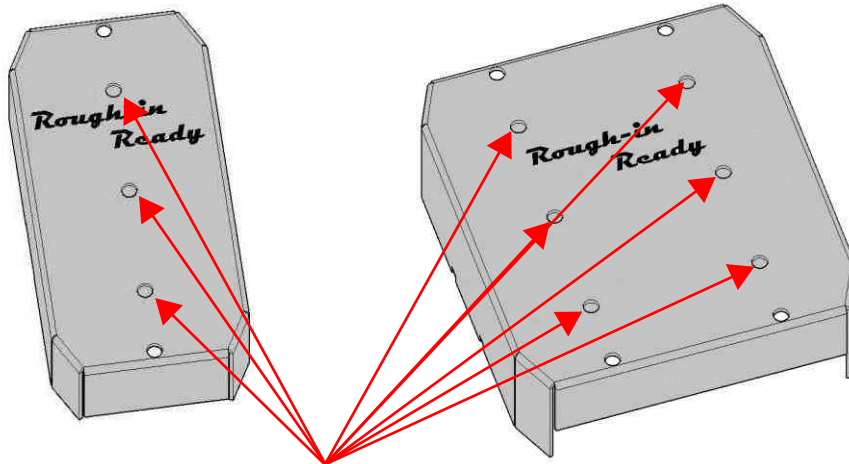

Cat. # PP1D and PP2 Cover Plates

1-800-286-9601 @ www.roughinready.com

The device cover plates are designed with mounting holes for GFI and Decora devices with knock-out holes for toggle style Switches and standard Duplex Receptacles.

Cat. # PP1D

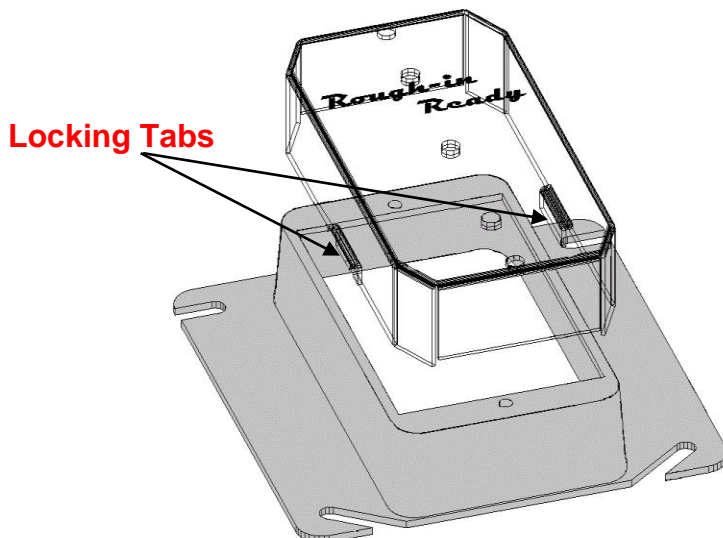

Cat. # PP2

Product will ship as pictured. Depending on the device being protected, the customer will need to punch the non-punched holes.

Cat. # PP1D Made to cover all devices in a 1 Gang application.

Cat. # PP2 Made to cover all devices in a 2 Gang application.

All protection plates are designed with locking tabs in them. This transfers any pressure on the cover plates to the mud ring, protecting the device under it.
